Plan Development

Citizen Input

offers insight, advice and practical experience

Facilitator brings out issues & maintains focus at public meetings

Planning & Zoning Staff liaison & preparation of draft plan, ordinance or regs.

Committee

Appointed by jurisdiction or formed from ad-hoc group of citizen volunteers to provide synthesis of citizen input and preparation of draft plan ordinance or regulation with aid of Planning and Zoning Staff

Planning and Zoning Commission

approval and/or modification of draft and recommendation to Elected Officials

Elected Officials

approval and/or modification of final plan, ordinance or regulation

Above groups develop, recommend and approve plans, ordinances and regulations.

Visioning Exercise*

- Where do you want to see your neighborhood in 10 years, 20 years and 50 years from now?
- Based on common themes such as housing types, recreational opportunities, economic development, public facilities (including roads), clean air & water, etc. form subgroups and:
 - Name five things you would like to see happen in these time frames & steps to make it happen.
 - Name five things you would not like to see happen in these time frames & steps to avoid.
 - Each group will note the most important positive and negative outcome to give to the Committee as whole.

*Not problem solving – leave that for the policy statements in the Plan.
